PremiumLift

Ultra Low Bed

Ultra Low Bed

Australia Lowest Bed

No more injuries from falling out of bed!

PremiumLift Ultra Low Bed is a unique system, which allows the platform to be lowered to as little as 6.7cm from ground level.

The lowering rate will automatically reduce when it reaches 120mm from floor level, to allow the operation to be stopped and the bed raised before any limb or object becomes trapped, ensuring complete user and patient safety.

PremiumLift Ultra Low Bed is backed by a 10 year limited warranty.
