

AirCare

Alternating Air Mattresses

Overlay & Replacement Mattresses

Overlays & Replacements Mattresses

AirCare offer a wide range of active mattresses designed to meet your needs. From overlay to replacement mattresses, we make sure that we have an option suited to you.

To make the choice easier we have created a mattress selector based on maximum user weight, mattress size and user risk. If you are still unable to decide, we have a dedicated sales team that will be able to help you with your choice, providing all the information you need.

Your purchase is backed up by our high-quality servicing team. We offer a two year limited warranty on all our alternating air mattresses and pumps to offer you peace of mind. At AirCare, we provide a cost-effective, quality service with an honest approach – preferring to repair rather than replace wherever possible.

Our compliance checks ensure all equipment serviced by AirCare is reliable and efficient, enabling staff to fully carry out their role effectively. The health and safety of service users and staff are important to us, so with ongoing support through regular training sessions and equipment audits, we will ensure that the quality of patient care increases and professional standards are maintained.

AirCare Max-5

Alternating Air Mattress Overlay

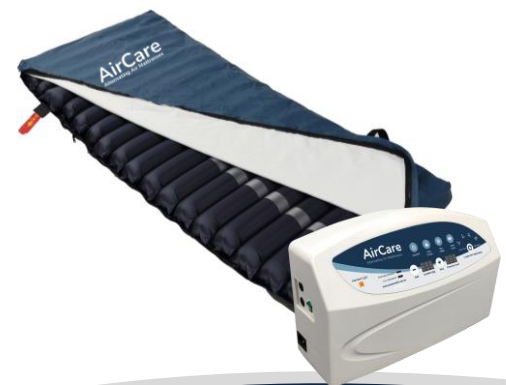

The Max-5 is AirCare alternating overlay mattress, designed for patients at high risk of developing pressure ulcers. This active overlay is designed to be used on top of the patient's existing static mattress. The overlay has 18 alternating cells made of TPU material to reduce noise when the cells inflate and deflate and a pillow section with 3 static cells for patient stability and comfort. It comes with a 4-way stretch welded PU cover which is vapour permeable, water resistant and has a Crib 5 fire rating.

Mattress Features

- ✓ 18 cells made of TPU material to reduce noise when cells inflate and deflate
- ✓ Pillow section for patient stability
- ✓ All cells interchangeable for ease of repair and cleaning
- ✓ Low weight to allow the carer to easily move the mattress
- ✓ 4-way stretch welded PU cover which is vapour permeable, water resistant and has a Crib 5 fire rating
- ✓ High risk
- ✓ Rapid release CPR valve for quick deflating
- ✓ 2 year limited warranty

Mattress Specifications

Maximum Patient Weights:	150kg
Single Dimensions:	890 x 1995 x 120mm (SKU ACMAX5S)
King Single Dimensions:	1060 x 1980 x 120mm (SKU ACMAX5KS)
Mattress Weight:	6kg
Warranty:	2 Year Limited
Pump:	AirCare Max-Pro
Pump Dimensions:	345 x 115 x 185mm

AirCare Max-8

Alternating Air Mattress Replacement

AirCare Max-8 Alternating Air Replacement Mattress combines the most advanced technology and clinically effective features in a portable system. The mattress is made up of 18 - 8" individual cells: 15 alternating air cells and 3 static pillow section cells. The cells are made of TPU material to reduce noise disturbance when cells alternately inflate and deflate and provide pressure redistribution for the prevention and treatment of Stages I-IV pressure ulcers. AirCare Max-8 alternating pressure mattress supports patients weighing up to 210kg.

Mattress Features

- ✓ 8" Cells provide exceptional pressure relief
- ✓ 18 cells made of TPU material to reduce noise when cells inflate and deflate
- ✓ Pillow section for patient stability
- ✓ All cells interchangeable for ease of repair and cleaning
- ✓ Low weight to allow the carer to easily move the mattress
- ✓ 4-way stretch welded PU cover which is vapour permeable, water resistant and has a Crib 5 fire rating
- ✓ For the prevention and treatment of Stages I-IV pressure ulcers (High Risk)
- ✓ Rapid release CPR valve for quick deflating
- ✓ 2 Year Limited
