Ultra Low Bed

6.7cm from the floor for complete user and patient safety

Australia Lowest Aged Care Bed

PremiumLift Ultra Low Bed is the ultimate floor-line bed with a minimum height of just 6.7cm from the floor ensuring complete user and patient safety, suitable for residential aged care facilities and assisted living solutions.

Ultra Low Bed is designed in Germany to the higher quality specification and equipped with a state of the art Anti-Entrapment System. This safety mechanism will automatically reduce the lowering speed when the bed reaches 120mm from floor level, to allow the operation to be stopped and the bed raised before any limb or object becomes trapped, ensuring complete user and patient safety.

PremiumLift Ultra Low Bed have plenty of user-friendly accessories and boards that can be easily fitted to the bed frame offering the ultimate customer experience, support carers with everyday tasks and bring a new level of confidence and dignity to the user.
