

Deluxe Floor Bed

Australia's lowest homecare bed

PremiumLift

Prevent injury and offer a memorable patient experience

Promoting Emotional Comfort

We have spoken with hundreds of Occupational Therapists, carers and aged care facility managers who express their need for a modern, cosy fully functional bed with floorline capabilities and ergonomic height.

We were asked to design a bed with a hidden castors system in order to offer the ultimate floorline care bed that looks like a home bed.

Keeping you safe & happy

In 2022, we were able to design a revolutionary bed frame that can be lowered to just 18cm from the floor level and can elevate to an incredible height of 73cm and meet OH&S height standard requirements.

Additionally, we successfully developed a unique Hidden Castors System that enables the user to easily move and relocate the bed around the room without see the castors.

Deluxe Floor Bed non-clinical design will revolutionise the home care market and truly enhances patient's recovery whilst promoting emotional comfort.
