

# Multi-Flex

Advanced Pressure Care Mattress

**Premium*Lift***

# Multi-Flex is suitable for every care environment

## Multi-Flex Superior Pressure Care Reduction

The clinically proven Multi-Flex™ pressure reducing mattress has been developed using the very latest manufacturing technology. This high quality product features a Gel-infused castellated foam surface, ensuring that total comfort is achieved whilst delivering excellent pressure re-distribution.

The pressure reducing, gel memory foam castellated zones are designed to maximise pressure re-distribution in the most vulnerable areas, regulate body temperature and improve sleep quality.

The castellations not only provide superior pressure relief and postural support but the channels cuts ensure that the mattress provides a constant airflow around the patient. This airflow assists in controlling temperature and therefore endeavours to improve comfort and the patients ability to sleep.

The high-density foam base and walls offers total stability during side transfer procedure, to alternative seating systems or that of assisting stand transfer.

**TGA** Approved  
Medical Device

**PremiumLift**

## Multi-Flex™ Features & Benefits

4-Way stretch, vapour permeable cover protected by a cotton inner lining

Gel-infused castellated foam surface, ensuring that total comfort is achieved whilst delivering excellent pressure re-distribution

Clinically proven pressure reducing mattress developed using the very latest manufacturing technology

## Multi-Flex™ Technical Information

### Clinical Features

- ✓ Castellated gel infused top layer
- ✓ High density foam base
- ✓ Hinged firm walls
- ✓ 4-Way stretch antimicrobial cover
- ✓ Waterproof and resistant to patient body fluids
- ✓ Resistance to cleaning agents
- ✓ Wipe clean
- ✓ Stain resistant
- ✓ Heavy duty PVC base
- ✓ Fire retardant foam
- ✓ 360° / two-sided integrated zipper
- ✓ High frequency sealed & welded seams
- ✓ Waterfall fluid penetration flap
- ✓ Superior durability
- ✓ Excellent performance

### Compliance

ARTG 398711  
ISO13485  
Australian Standards  
BS7177, BS5852

### Warranty:

2-year cover  
5-year foam

### Product Code

PLMFS (Single)  
PLMFKS (King Single)

### Risk Factor

Medium / High Risk

### Maximum Patient Weight

180 kg

### Mattress Dimensions

Single: 198cm x 88cm x 15cm  
King Single: 198cm x 106cm x 15cm

### Mattress Weight

13.98 kgs

### Colour

Purple top cover  
Grey bottom cover

### Applications

General medical mattress  
Aged care mattress  
General hospital ward mattress  
Homecare mattress
